Disaster solar containers deliver clean, reliable emergency power in under 2 hours, offering rapid, fuel-free deployment for disaster relief.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

GME Solar Rescue Kit includes everything you need for lowering and rescuing from residential and commercial roof applications.
