We integrate research and development, production, and sales of lithium battery packs, serving solar energy, wind energy, intelligent charging equipment, and more.

Falling prices for battery storage systems, public subsidies and increased motivation on the part of private or commercial investors led to a strong increase in sales of photovoltaic battery storage ...

Austria quadruples subsidies as demand for solar and battery energy storage systems soars, adding 218 MW PV and 200 MWh storage capacity.

Additionally, the maximum subsidy for a single storage system has doubled from EUR25,000 to EUR50,000--a clear signal of ...
