What is a sunsynk 30kW / 50kW hybrid inverter?

Designed for easy installation and maintenance, the Sunsynk 30kW / 50kW 3-Phase Hybrid Inverter will seamlessly integrate into your world to reduce costs, and provide reliable, renewable energy.

How efficient is a sunsynk inverter?

The CT coil measures the power and the inverter will reduce power when too much power is detected going to the grid. Even better, if the Sunsynk inverter only has 2000W of excess solar, the element will receive the other 200W from the grid. So it is efficient.

What is a sunsynk 16 kW inverter?

The SunSynk 16 kW inverter offers a complete single-phase solution and incorporates an inverter, charger and MPPT charge controllers. We have taken the Sunsynk Hybrid Inverter to the highest level. Our new Sunsynk MAX is the most powerful low-voltage inverter in the world, achieving a maximum output power of 16kW and battery charge current of 275A.

Why should you buy a sunsynk 30kW / 50kW hybrid?

Its comprehensive LCD display offers user configurable and easy accessible button operation such as battery charging, AC/solar charging, and acceptable input voltage based on different applications. Designed for easy installation and maintenance, the Sunsynk 30kW / 50kW 3-Phase Hybrid
