The American Clean Power Association (ACP) is the leading voice of today's multi-tech clean energy industry, representing energy storage, wind, utility-scale solar, clean ...

These systems allow energy from variable sources like solar and wind to be stored and used when needed. This helps balance the grid and supports a stable electricity supply ...

President Trump's policy bill could remake American energy by slashing tax breaks for wind and solar power, and for electric cars, while maintaining federal support for fossil fuels ...

In 2026, developers are likely to accelerate solar-plus-storage to serve hyperscaler demand, diversify revenue to manage volatility, and position early in long-duration and distributed ...
