---

Designed for multiple scenarios, they are ideal for urban buildings, communities, and low-voltage networks, featuring highly integrated liquid-cooled Commercial & Industrial (C& I) energy ...

Air-cooled containerized energy storage systems have emerged as a critical technology for industrial and commercial applications, particularly in challenging environments ...

Discover the 120kWh Micro-grid Air-cooled ESS -- a modular, all-in-one battery energy storage system for commercial and industrial applications. On-grid/off-grid support, smart monitoring, ...

The Air-Cooled I& C Distributed Energy Storage System is designed with advanced semi-solid-state battery cells (SSB 3.2V/280Ah) that offer excellent cycle life and durability.
