The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW. [pdf]

Search all the commissioned and operational GUSESS projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Andorra with our comprehensive online database.

The lines between communication infrastructure and distributed energy resources are blurring faster than we anticipated. As one engineer in Kenya's remote Marsabit region told me last ...

Our energy storage solution is flexible in design and can be seamlessly integrated with various existing base station power systems. The modular design can better adapt to different types of ...
