---

Diversifying energy sources and reducing import dependencies are key Armenian policy priorities. With no significant domestic fossil fuel reserves, hydroelectric power is the primary local ...

Armenia imports 81% of its primary energy supply and 100% of its fossil and nuclear fuels. These imports stem mainly from Russia and to a lesser extent also from Iran. Expansion in cross ...

es Armenia need a single energy supplier? Armenia relies on imports of natural gas and oil for most of its energy needs, which exposes it to supply risks and dependence on a single supplier. ...

The objective of the present report is to assess Armenia's legal and regulatory framework for energy storage and provide recommendations for reforms that would be needed to ...
