Are there private solar companies in Costa Rica?

There are many private companies, most of them members of ACESOLAR (Costa Rican Solar Energy Association), and the CDG (Chamber of Distributed Energy Generation of Costa Rica). They have changed the current legislation opening the market and allowing more solar panels and batteries to be installed.

Who is the target market for solar energy in Costa Rica?

According to the Costa Rican Institute of Electricity (ICE) and the Costa Rican National Power and Light Company (CNFL), both government entities, the target market for solar energy in Costa Rica remains to be households or companies that consume between 200kw/h and 3,000kw/h. ICE and CNFL have been installing photovoltaic systems.

Does Costa Rica export solar panels?

The U.S. continues to grow slightly every year, even in a depressed market that slowed after new VAT was implemented. Exports from Costa Rica are also of imported products from other countries. Most companies selling solar systems are assembled Asian solar panels with some U.S. made components.

Does Costa Rica produce solar energy?

As mentioned before, there is no significant local production of solar energy products in Costa Rica, but it has increased during the last year. The Costa Rican energy generation matrix for 2022 is composed of 74 percent Hydro, 12.8 percent Geothermal, 12.5 percent Wind, Biomass 0.54 percent, and 0.07 percent Solar.
