What is Australia's energy storage capacity?

Australia had 2,325MW of capacity in 2022 and this is expected to rise to 22,076MW by 2030. Listed below are the five largest energy storage projects by capacity in Australia, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a complete picture of the global energy storage segment.

How much is battery storage worth in Australia?

Credit: Phonlamai Photo /Shutterstock. The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total of A\$2.4bn (\$1.5bn) reaching the financial commitment stage, according to the latest Clean Energy Australia Report 2025.

Why is battery storage important in Australia?

Battery storage is now key to Australia's clean energy transition. It stabilizes supply by storing extra renewable energy and delivering it on demand, even when solar or wind output drops. This helps prevent blackouts and ensures steady green energy flow. BESS installations are expected to double by 2027.

What will Australia's battery storage industry look like in 2030?

Australia's battery storage industry is poised for substantial growth and innovation. With increasing renewable energy penetration, the demand for reliable energy storage is escalating. By 2030, the nation's installed battery storage capacity could reach 30 GWh.

Australia has become a market leader in BESS. Discover what is driving BESS adoption and the region's storage plans for the future.

The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total of A\$2.4bn (\$1.5bn) reaching the ...

In 2025, Australia is experiencing explosive growth in solar and energy storage. This guide comprehensively analyzes off-grid battery systems in Australia, the best solar batteries in ...

The Australian Energy Market Operator (AEMO) has revealed that, as of March 2025, the pipeline of new standalone battery energy ...
