Automated production of lithium-ion, saltwater and solid-state batteries. Stacking/laser welding of cell modules and end-of-line (EoL) testing technology.

As a provider of automation solutions, Bosch Rexroth supports the entire value stream: From electrode and cell production to battery module and pack assembly, and even end-of-line testing.

We also offer battery manufacturing machines to enhance the production and assembly of stationary energy storage solutions, mobile devices, wind turbines, and solar panels.

American household solar container battery manufacturers Powerwall products are actually manufactured by parent company, Tesla motors, with its applications restricted to residential ...
