Sustainability: The system is designed to be fully off-grid, powered by a solar-battery microgrid, and recycles most of the water used (up to 95% less water than traditional farming).

The Barbados installation consists of three container units, two dedicated to production and one for nursery and support. These units operate under a solar-battery ...

For those who value eco-friendliness, off-grid container homes are a game-changer. Equipped with solar ...

Delivering 10,000W of rated power output, this rugged pure sine wave hybrid inverter is capable of pairing with either GEL or LI batteries. Dual MPPTs provide 99% efficiency. Provides 120V and ...
