The effect of excessive charging voltage on the battery: 1, the charger and rechargeable battery is to match, charging voltage is too large will cause excessive current, ...

And yet, over-voltage is one of the most underestimated killers in battery systems today. Most folks focus on deep discharges, thinking ...

A reading significantly higher than the battery's rated voltage indicates an over voltage condition. If an over voltage is detected, proceed to inspect the battery charger.

It can take a lot of patience to get all the cells to a single voltage and "stay" there. It paid off, and that pack does a lot better since that couple days of tinkering.
