Are solar panels an eyesore on a roof?

To some, solar panels can appear to be an eyesore when set on a roof of otherwise uniform architecture. This article will dive into the different solar panel color and framing options available to homeowners, and the pros and cons of each setup.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

Which solar panels look best?

Black frames are often considered to be the top choice for the best-looking solar panels. They are less jarring and look far more modern. The sleek black-on-black color palette when paired with monocrystalline solar panels feels more expensive and luxurious. However, it is more expensive.
