The Eurasian Development Bank (EDB) and Bishkek Solar have inked a cooperation agreement to finance the construction of a 300 MW photovoltaic power station in Toru-Aigyr village, Issyk

Russia is going to build a solar power plant with a capacity of up to 300 MW in Kyrgyzstan. It is planned to build it on the territory of Issyk-Kul region. This was announced by ...

The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW. [pdf]

Located at Bishkek's primary landfill, the plant was constructed by China's Hunan Junxin Environmental Protection Co. Ltd., which invested \$95 million in the project. Initially, the ...
