---

We have developed two different containerized systems: our mobile Solartainer Amali and our scalable Solartainer Kani. An intelligent mini-grid system distributes electricity by means of a ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

Ever wondered why container-based solar systems are suddenly everywhere from factory rooftops to disaster relief zones? The answer lies in our growing energy paradox.

After its commercial operation, this solar power plant in South Africa will supply dispatchable electricity to the South African National Grid under a 20-year PPA, which is equivalent to 400 ...
