What is a battery energy storage scheme in Romania?

The aim of the scheme is to support investments in battery electricity storage facilities, allowing for a smooth integration of renewable energy coming from wind and solar sources in the Romanian power system. Under the scheme, the aid will take form of a direct grant to projects selected through a competitive bidding process.

Will Romania support the construction of electricity storage facilities?

Following the positive assessment of the Romanian Recovery and Resilience Plan, the Commission has approved a EUR103 million Romanian scheme to support the construction of electricity storage facilities.

When will Romania's largest battery storage project start?

The original call, which referred to at least 620 MWh, was expected to see projects selected by the end of 2023, according to reports. In April, Romania's largest battery storage system, of 24 MWh, was put into operation. It is the first phase of a project totaling 216 MWh.

Should Romania Invest in energy storage?

Burduja has also called for investments in energy storage, stressing that the Ministry of Energy is making non-refundable grants available for this purpose. Romania wants mature projects that can be implemented quickly and that can help balance the system, he was quoted as saying.

Based on its renewable energy potential and considering the national energy sector's current characteristics - generation assets, interconnections, market design, regulatory landscape - ...

The aim of the scheme is to support investments in battery electricity storage facilities, allowing for a smooth integration of renewable energy coming from wind and solar ...

This report analyses the potential of some of the main energy storage technologies, presenting their respective advantages and disadvantages that need to be considered when evaluating ...

Bucharest has become a focal point for renewable energy development in Eastern Europe. With Romania aiming to achieve 30% renewable energy integration by 2030, energy storage ...
