In November 2024, Honduras made waves with its 75MW/300MWh battery storage tender - the energy equivalent of building a 4-hour power bank for 75,000 Honduran households [1]. Fast ...

Six separate companies have submitted bids to build the 4-hour BESS project, and it will be implemented next year after evaluation and award phases are completed, Carbajal ...

This project, selected through an international tender with six proposals, will be the largest energy storage system in Central America once operational by the end of 2025.

Summary: Honduras is embracing modern energy storage batteries to support renewable energy integration and stabilize its power grid. This article explores lithium-ion solutions, solar battery ...
