Denver-based Peak Energy claims its sodium-ion battery system offers the lowest operating cost of any energy storage technology on the market today. Peak Energy ...

Peak Energy's passively cooled sodium-ion system, part of a shared pilot with utilities and independent power producers (IPPs), targets a 20% lifetime cost drop and a 33% ...

The company says its technology slashes auxiliary power needs by up to 90%, saves about \$1 million annually per gigawatt hour of storage, and cuts battery degradation by ...

Additional storage technologies will be added as representative cost and performance metrics are verified. The interactive figure below presents results on the total installed ESS cost ranges by ...
