For months as the US military prepared to strike Venezuela, many Cubans have asked a simple, if disconcerting, question: "Are we next?"

Because of its surface area of 109,884.01 square kilometers, it is considered to be the largest island in the Antilles. The name of Cuba comes from the Taino language spoken by the ...

With an area of more than 44,000 square miles (114,447 sq. km.), Cuba is the largest island in the West Indies, accounting for more than one-half of the total Caribbean land mass. ...

Trump's comments spur anxieties about his plans for Greenland and Cuba. The Associated Press is an independent global news organization dedicated to factual reporting.
