First, Warda runs conduit from the roof to the home's main electrical panel according to local codes. The necessary wiring will run through them to connect the panels to ...

To find the right solar inverter or inverters for your installation, you must consider several specific features of your property, including your energy demand, roof complexity, and ...

Your panels might still collect sunlight, but without an inverter translating that DC juice into usable AC power, it's a no-go. You won't get billed extra by your utility, but you will ...
