What is a acdc12c solar air conditioner?

The ACDC12C hybrid solar air conditioner allows you to add comfort without adding energy cost, and can sharply cut your daytime heating and cooling bills. Get up to 100% of your daytime cooling (or heating) free from the sun. Plug-N-Play solar connections make installation simple. Over SEER 22 on normal AC power.

Do acdc12c solar air conditioners need batteries?

ACDC12C solar air conditioners need no batteries, and uses three or more (up to six) solar PV panels to deliver a huge savings. During the day, when air conditioning is needed the most, you can operate this unit with very little or no draw on your utility meter. At night, you continue to save due to the official SEER 22 rating on this unit.

Does a solar mini-split air conditioner work at night?

At night, you continue to save due to the official SEER 22 rating on this unit. This solar mini-split air conditioner design allows you to put solar cooling into the area where it's needed the most and avoid the security issues of an unsightly and noisy window unit.
