---

Wrap the stack of modules thoroughly from the bottom to the top using several layers of commercial grade shrink wrap. Use packing tape or other means to secure the free end of the ...

The present invention relates to the technical field of double-glass solar modules, and in particular to a double-glass solar module packaging box and a packaging method thereof.

In contrast, double glass modules replace the polymer layer with another glass sheet, creating a robust sandwich structure. At IBC ...

Double glass modules are made with high-quality glass and reinforced packaging technology to ensure their stability in extreme conditions. Their resistance to shocks and corrosion is higher ...
