---

Generally, there will be more than 100 FPC applications on an electric vehicle, among which the FPC application value in the battery BMS and the vehicle camera module is the highest, and it ...

In the future, new energy vehicles will definitely use FPC to replace wiring harnesses in large numbers, which is a very important trend. FPC will be applied in many parts ...

FPC solutions are indispensable in modern power battery manufacturing. In the era of smart vehicles, widespread automated FPC applications in batteries represent a key ...

As the demand for new energy vehicles continues to surge, the key to achieving this transformation lies in the accelerated development of flexible printed circuit (FPC) manufacturing.
