Banks like Goldman Sachs and HSBC are now offering non-recourse loans specifically for BESS projects (Battery Energy Storage Systems). In 2023 alone, project financing for storage ...

Battery energy storage systems can address the challenge of intermittent renewable energy. But innovative financial models are needed to encourage deployment.

Read our blog to learn how to leverage energy solutions financing and incentives to access zero-CapEx on-site solar and storage projects.

However, financing these projects--especially those requiring \$100 million or more --can be complex. This guide explores the key strategies and options for securing energy storage ...
