When exploring the solar energy industry in Finland, several key considerations come into play. The country has ambitious renewable energy targets, aiming for carbon neutrality by 2035.

Sundial Finland: Provider of a variety of solar thermal products and services: solar heating systems and components, ...

Sundial Finland: Provider of a variety of solar thermal products and services: solar heating systems and components, engineering, consulting and training services.

We determine the load-bearing capacity of structures, wind loads on solar panels and the need for possible wind protection. We also assess the number of panels needed for each specific ...
