With global renewable energy capacity growing at 9.6% annually (Global Energy Monitor 2023), the need for adaptable storage solutions has never been more urgent.

In Burundi's capital Gitega, where grid coverage barely reaches 15% of households, the new Gitega Off-Grid Energy Storage Power Station isn't just another infrastructure project. It's a ...

The new battery park will have a storage capacity of 2.400 MWh. This means that the average energy consumption of 330.000 families can be stored here each day and fed back into the ...

Africa's installed solar capacity grew by 37% in 2024 alone [1], but here's the kicker--over 30% of this clean energy gets wasted due to inadequate storage. The Gitega Green Energy Storage ...
