Let's face it--when you think of energy storage innovation, your mind probably jumps to Silicon Valley or Shanghai. But here's a plot twist: Helsinki is quietly becoming the ...

Helsinki is the capital of Finland, located in the south by the Gulf of Finland. It is a key hub for business and culture, with around 675 000 residents.

This report provides an initial insight into various energy storage technologies, continuing with an in-depth techno-economic analysis of the most suitable technologies for Finnish conditions, ...

The status of these energy storage technologies in Finland will be discussed in more detail in the next sub-sections, giving a better understanding of the current and potential ...
