What are insulated containers used for?

Our durable insulated containers are ideal for bulk shipping and temporary storage of mixed products. Double-wall construction with specially treated high-impact polyethylene enhances foam adhesion and adds structural strength. Ergonomic design promotes operational efficiency and also maximizes cube space.

What is a high-performance temperature controlled shipping container?

A high-performance temperature controlled shipping container, as offered by Insulated Products Corp, protects your temperature-sensitive goods from spoilage during transport. Insulated Products Corp provides high-performance and cost-effective solutions for all your thermal packaging needs.

What are the different types of temperature-controlled shipping containers?

Insulated Products Corporation offers temperature-controlled shipping containers in a wide assortment of shapes and sizes, including insulated box liners, pallet covers, insulated delivery bags, and pallet covers.

Why should you choose insulated containers?

Whether food, medical products or sensitive goods - our insulated containers ensure reliable temperature maintenance to keep your products fresh and safe at their destination. With high-quality materials and sophisticated design, we combine excellent protection with easy handling and sustainable reusability.
