---

In an unusual merger of renewable energy and fossil fuels, solar energy is being tapped to power an existing oil refinery. The Rodeo, California, facility operated by Phillips 66 ...

This paper proposes a solar-assisted method for a petrochemical refinery, considering hydrogen production deployed in Yanbu, Saudi Arabia, as a case study to ...

The study investigated the feasibility of a solar hybrid system in an oil refinery. The system integrated with a sensible heat storage tank can decrease the energy required from the boiler ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic ...
