Often, traditional plastic materials are made more heat-resistant by adding something to them to increase their resistance to high temperatures. Here is a closer look at some of the more ...

These polypropylene totes are chemically resistant to acids, alkalis, oils, and detergents. The tough, smooth surface won't chip and is mildew-proof.

It has one of the highest service temperatures among all melt-processable thermoplastics, combined with high-temperature resistance and inherent flame retardance.

Weather-resistant: Our containers are designed to withstand tough weather, ensuring your items stay dry and protected throughout the year. Choose Go Mini's for your hotel storage needs ...
