While container prices stabilized, the ripple effect continues. A standard 40HC container that cost \$3,500 pre-2023 now averages \$4,200 - and that's before adding solar components. Pro tip: ...

The container shipping costs can vary with a 20 ft and 40 ft container type. Here is the table for consumers to analyze the approximate expense of moving container shipment.

On April 24, 2025, the Drewry World Container Index (WCI) showed a 2% drop, bringing the cost to \$2,157 per 40-foot container. This is still considerably higher than pre-pandemic rates but ...

Maintenance and operational costs need to be factored in, usually a few hundred dollars annually, depending on the system's size and environmental conditions.
