How much does it cost to install an electric car charger?

EV charger installation costs \$1,200 to \$3,000 on average for a complete Level 2 installation in a typical single-family home. The total cost of an electric car charging station depends on the charger type, model, site conditions, and whether the home needs any electrical upgrades. *For a Level 2 charging station

Should I use a public charging station?

Having a charging station in the comfort of your own home is not only convenient, but the electricity itself often costs less than using a public charging station. Public stations use Level 3 DC charging, so they charge faster but often cost more. Depending on your energy plan, you may be able to save by charging during off-peak hours.
