The Croatian battery news came in the wake of plans for a standalone utility-scale battery storage system in Serbia. The office of the Mayor of Leskovac revealed plans for a 125 ...

The battery system will have a discharge capacity of 38 MW and a storage capacity of up to 70.8 MWh, designed to operate for around twenty years. An environmental ...

Croatia plans to install 600 MW of storage capacity by 2030 - enough to power 400,000 homes for a full day. The current project represents 26% of this national target.

The European Bank for Reconstruction and Development (EBRD) is providing a direct equity investment of up to EUR16.8 million in ...
