The 20 MW solar plant will supply electricity to approximately 16,000 households in Juba, integrating clean energy into the national grid. The project is expected to reduce carbon ...

The team has managed all aspects of the project, from initial assessment and design to the actual installation of solar panels. This solar power plant is a grid-connected ...

There are plans to build new generation stations and to import electricity from neighboring Ethiopia, Sudan and Uganda, but the civil war has hindered progress in that direction.

In an effort to enhance electricity supply to city residence and businesses, the Council of Ministers has approved a Memorandum of Understanding (MoU) worth over USD ...
