Pilkington Optiwhite(TM) is a range of extra clear low-iron float glass products with very high solar transmittance, offering improved solar energy conversion and consistent performances.

Ultraviolet (UV) Transmittance (Tuv, %) is the percentage of the incident UV component of the solar radiation in the wavelength range of 280 nm to ...

As solar simulators are considered key methodologies for conducting solar-based research under a well-controlled environment, this study employs small-scale solar simulator ...

Measurements were conducted on four types of commercial plate glass to determine their respective visible transmittance, visible reflectance, solar ...
