In the present work, the authors have attempted to design a solar cement plant for supplying solar energy to the cement industry. A case study was done, which investigated a ...

Each year, the U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U.S. solar photovoltaic (PV) systems to ...

Inflation in cement costs could be a challenge in the energy transition. European heat, electricity and CO2 prices can very easily double the marginal costs of production.

To analyze the practical viability of the proposed approach, a realistic case study is solved featuring an existing cement producer, real-world energy pool prices, and data pertaining to ...
