Our most recent offshore modular solar power system for a client's wellhead platform in South N'Dola is designed to effectively reduce emissions and operational costs ...

These systems consist of energy storage units housed in modular containers, typically the size of shipping containers, and are equipped with advanced battery technology, ...

The present work reviews energy storage systems with a potential for offshore environments and discusses the opportunities for their deployment.

Abstract - This paper presents a case study for a recent Company approved offshore oil and gas development project aims to install 19 platforms with off-grid photovoltaic (PV) and battery ...
