The MEGATRON 1MW Battery Energy Storage System (AC Coupled) is an essential component and a critical supporting technology for smart grid and renewable energy (wind and solar).

This liquid-cooled system operates within a 1500 V to 2000 V voltage range and offers configurable storage durations ranging from two to eight hours. The entire container ...

The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the ...

Designed to meet the demands of large-scale energy storage, these battery storage containers offer scalability, mobility, and climate resilience--ideal for utilities, industries, and remote ...
