---

Three large wind power stations (25, 19, and 15 GWt [clarification needed]) became available to Russia after it took over the disputed territory of Crimea in May 2014.

But here's a plot twist worthy of Tolstoy: the world's largest country is quietly becoming a playground for energy storage innovation. From Soviet-era pumped hydro giants to cutting ...

Russian attacks on Ukraine's energy infrastructure have been a key part of Moscow's effort to bring the country to its knees. The goal, energy experts say, has been to ...

Overnight into Friday, part of a major Russian energy facility near the Ukrainian border that once pumped natural gas to western Europe was set ablaze in an attack that each ...
