Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more.

To support this effort, NYPA built a 20 MW energy storage project in Chateaugay, New York.³³ The Northern New York Energy Storage Project (NNYESP) takes advantage of ...

The project may be a new solar plus storage system, or an existing solar project retrofitted to add a new energy storage system. To receive the energy storage installation incentive, you must ...

At its core, the project uses lithium-ion batteries bigger than your neighbor's swimming pool--300 megawatt-hours of storage capacity to be exact. But here's the kicker: ...
