What makes Newmar rackmount inverter series unique?

Design Compliance: Built in accordance with Newmar's standard design practices for reliability and consistency. Our Rackmount Inverter Series stands out with its pure sine wave output, versatile communication options, and a sleek, space-saving 2U design.

What makes the rackmount inverter series unique?

Our Rackmount Inverter Series stands out with its pure sine wave output, versatile communication options, and a sleek, space-saving 2U design. Compared to competitors, Newmar's product ensures superior power quality, comprehensive monitoring capabilities, and enhanced operational flexibility.

What is a true-sine wave inverter?

Engineered for efficiency and versatility, our inverters are designed to meet the rigorous demands of the LMR, Broadband, and WISP industries. These 2U, 1600 & 2400 W true-sine wave inverters are designed to provide seamless 120 VAC 50/60 Hz back-up power for AC powered communications equipment from the site's 48 or 125 VDC power system.
