One of the measures proposed was to initiate a closer Nordic cooperation with the aim of considering different measures to reduce extreme power price peaks resulting from European ...

The Nordic countries have set ambitious targets for implementing renewable energy sources and energy storage, which will move them closer to a sustainable fossil-free energy ...

Real time map that shows the power exchange and prices between the different price areas in Denmark, Sweden, Finland, Norway, Estonia, Latvia and Lithuania.

The Nordic power sector is in a precarious state, but its trajectory is far from dire. Forward prices have already risen to multi-month highs (front-year at 36.7 euros/MWh), and ...
