We are an international project developer of wind, solar and battery storage (BESS) projects. Our activities include the planning, development and construction of these projects, as well as their ...

Battery storage systems (BESS) offer renewable energy companies, like Nordic Solar, a way to store energy from clean sources, such as solar and wind energy. While these ...

This project, named the Ainola BESS, is integrated with the Piiparinmäki wind farm in the North Ostrobothnia region and features a storage capacity that lasts for 1.36 hours.

Initially requested by the Nordic Council of Ministers, this report is intended for everyone who has an interest in the development of the Nordic transmission grid and the challenges related to ...
