Imagine a solar farm larger than Manhattan--now add enough batteries to store 202 MWh. That's Qinghai's Huanghe Hydropower Project, which in 2023 achieved 7 ...

These containers are already deployed on certified projects in Asia, Africa, and South America, so they're an imposing choice for individuals who need a turnkey, compliant solar container

The first and largest containerised battery energy storage system (CBESS) for solar power has been launched in Indonesia.

Australia's first commercial vanadium-flow battery has been completed in South Australia's mid north and is expected to be running and exporting power by August.
