OQ is a global integrated energy company, with roots in Oman and operations in 17 countries globally. Visit OQ to learn more.

Designed for policymakers, renewable energy developers, and tech-savvy environmentalists, this megaproject could become the Middle East's blueprint for grid resilience.

We've all seen those "universal" storage units that fail at 45°C. Our modular batteries use graphene-enhanced anodes that actually improve performance up to 60°C--perfect for ...

"This is a big, commercial-scale project that will make a meaningful contribution to Oman's energy transition. It is set to be the first energy storage project of its kind in the Middle ...
