Let's face it - Ouagadougou's sunshine isn't just for beach days anymore. With 3,000+ annual sunlight hours [1], this city could power itself 3 times over using solar. But ...

Their Ouagadougou flagship project--a 20MW/80MWh lithium-ion facility--powers 15,000 homes after dark using solar energy captured during daylight. But here's the kicker: they've achieved ...

A solar energy shipping container is essentially a compact, pre-engineered energy system that integrates solar generation and large-scale storage into one robust, transportable unit.

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...
