What types of inverters are available?

The product range extends from small residential inverters to large commercial inverters power inverters to suit every customer requirement. Our inventory includes multiple inverter for sale choices.

What are inverters & uninterruptible power supplies (UPS)?

Inverters and Uninterruptible Power Supplies (UPS) are key elements in power system infrastructure. An inverter is a device that converts direct current (DC) to alternating current (AC), enabling the use of electrical appliances when main power is unavailable, such as in solar power systems or mobile applications.

Can a 200W fridge be used on a sine wave inverter?

A 200W fridge is possible on pure sine wave inverters. Supports a fridge, TVs, a few lights, and small appliances (kettle or toaster, one at a time). Powers an entire small house excluding oven and geyser. Units can be paralleled to expand capacity for larger households. Great value for big homes or light commercial use.
