---

Domestic demand in China has weakened since subsidies expired, freeing up low-cost modules for export. Prices for bifacial glass-glass modules for utility-scale projects in ...

Reasons for the surge included declining module prices and increasing construction of renewable energy "megabases"--gigawatt-scale wind and solar projects sited in remote areas.

As of January 2025, solar module prices have remained relatively stable across all categories, including ultra-high-efficiency products and other module classes.

The requirements of measures such as the Uyghur Forced Labor Prevention Act (UFLPA) mean that solar panel prices in the United ...
