-----

The entire container and floor are closed-cell spray foamed. It's insulated very well: it's framed and has cedar planks for interior walls. The wind turbine will not be included unless customer is ...

Whether you need to power your container for lighting, electrical equipment, or other energy requirements, our solar panel installations offer a reliable and environmentally friendly solution.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

While container prices stabilized, the ripple effect continues. A standard 40HC container that cost \$3,500 pre-2023 now averages \$4,200 - and that's before adding solar components. Pro tip: ...
