These projects are expected to create tens of thousands of jobs, particularly in Battambang, Pursat, Kampong Chhnang, Ratanakiri, Mondulkiri, Sihanoukville, Kampong Cham, and Prey ...

The projects will increase Cambodia's share of clean energy generation capacity to 70 percent by 2030 from more than 62 percent at present, according to the ministry.

The project will aim at deploying at least 2100 MW / 4100 MWh of BESS capacity with grid-forming inverter in various locations across Cambodia mostly for ancillary services, ...

PHNOM PENH: The Cambodian government on Friday (Sept 27) approved 23 power investment projects totally worth US\$5.79 billion ...
